EDUCATION

Northeastern University - Khoury College of Computer Sciences
Master of Science in Computer Science (GPA: 3.875)

May 2025
Boston, MA

Savitribai Phule Pune University
Bachelor of Technology in Information Technology

June 2023
India

TECHNICAL SKILLS

Languages: Java, C, C++, Python, JavaScript, TypeScript, HTML5, CSS, PHP
Frameworks: Bootstrap, React.js, Node.js, Express.js, Spring Boot, JUnit, Selenium
Databases: MySQL, MongoDB, PostgreSQL, MSSQL, Oracle
Cloud & DevOps: Amazon Web Services (AWS), Docker, Kubernetes
Others: Linux, Shell, Bash, Git

WORK EXPERIENCE

METY Technology | VA, USA

June 2025 - Present

Software Engineer

- Engineered the **Organization** feature using **Python & React**, enabling B2B sales which generated around \$XXk ARR
- Accelerated comprehensive technical debt analysis by **30%** using **AI**, leading to immediate fixes that increased reliability
- Launched a custom B2B application replica with **Stripe** payment, accelerating development by **20%** with **Cursor IDE**.

PreBuild Technologies LLC | WY, USA

May 2024 - August 2024

Software Developer Intern

- Developed efficient Java modules for construction platform, cutting latency by 20% & improving system performance.
- Optimized backend microservices to handle 2X concurrent user load, reducing response times significantly.
- Established an error handling & logging framework throughout **Java** applications, reducing critical incidents by 75% .
- Delivered **RESTful APIs** in an Agile environment, using API-First Development, saving 20+ work hours weekly.

IDEaS Revenue Solutions | India

Jan 2023 – Jun 2023

Associate Software Engineer Intern | Java EE, Spring, MySQL, AWS

- Fortified product by developing new features & RESTful APIs with **Java, Spring**, resulting in 15% faster transactions.
- Implemented **Test Driven Development** with **JUnit** that reduced defects in dynamic pricing calculations by 30%.
- Improved dynamic pricing algorithms by 5% by leveraging **Java** through in-house revenue optimization models.
- Improved DB performance through indexing & caching techniques, cutting response times by 100ms.

PowerMech Engineering Systems | India

Aug 2022 - Dec 2022

Software Developer Intern | JavaScript, React, Node, MongoDB, Material UI

- Designed & built an **end-to-end rental platform** from prototypes to production, with **React, Node, Material UI**.
- Applied **UI/UX** best practices to enhance user experience and accessibility, reducing user drop-off rates by 75%.
- Revamped **CI/CD** pipelines with parallel builds using Jenkins, Dockerized deploys, cutting deployment time by 60%

PROJECTS

StudentPal - Student Life Assistant - Java, Next.js, Spring, Github, Prometheus, SonarQube

- Designed a multi-platform student assistant with **JavaFX** and **Next.js** for dual-platform access.
- Validated application reliability via **JUnit** & **TestFX** test suites, achieving 85% code coverage across 200 test cases
- Streamlined workflows by automating **CI/CD** with **GitHub Actions** & **SonarQube**, maintaining 90% code quality.
- Implemented real-time application monitoring with **Prometheus**, improving incident response time by 30%
- Accelerated project development by 20% by integrating **LLM-powered** AI features & leveraging diverse **GenAI** tools.

Image Processing Application - Java, MVC, JUnit, SQL

- Built a robust Image Processing App with **Java Swing**, using **OOP** principles & design patterns in MVC architecture.
- Incorporated various image filters & compression algorithms, enhancing productivity & optimizing resource usage.
- Implemented **custom image compression** algorithm to reduce file sizes by 40% , improving storage efficiency .
- Conducted rigorous **unit testing** with **JUnit**, ensuring 99% code coverage for ease of future maintenance.

Boston Property Info - React, Express, Material UI

- Developed a property info platform for Boston using **React, TypeScript**, & **Material UI**, with over 100+ users.
- Engineered integration system to consolidate property records & violation history using **RESTful APIs**
- Implemented advanced search functionality using **Redux**, resulting in 60% faster lookups.
